September is Hydrocephalus Awareness Month (HAM), our chance to bring national attention to the one million Americans living with hydrocephalus and the challenges felt by all in managing this condition. As President and CEO of the Hydrocephalus Association (HA), I would like to personally ask you for YOUR HELP to spread awareness about this complex condition and urge people to donate and get involved. Use your imagination and creativity to help us turn the country Hydrocephalus Blue during HAM!

I know your time is limited, and HA has provided information on our website that can help you celebrate this special month with us. [INFORMATION HERE](#) You can help by sharing HA’s social media posts during September and create your own posts to show how you are helping to turn the country Hydrocephalus Blue. Make sure to tag us @HydroAssoc and use the hashtag #HAM2022.

We have also partnered with key organizations to amplify public attention on hydrocephalus. Can you reach out to organizations in your community and let them know that we would be honored to have them engage in the celebration of HAM?

We are working to make this the best HAM ever and my hope is that we can count on you to help reach that goal! Let us work together to create awareness and help us fund critical research that leads to a better quality of life for those living with hydrocephalus and to eventually finding a cure. Together we can make a difference.

Sincerely,

Diana Gray
President and CEO, Hydrocephalus Association
