

HYDROCEPHALUS ASSOCIATION

# CORPORATE COUNCIL OPPORTUNITIES

HYDROCEPHALUS  
ASSOCIATION'S

## MISSION & VISION

**Our mission** is to find a cure for hydrocephalus and improve the lives of those affected by the condition.

We will accomplish this by collaborating with patients, caregivers, researchers and industry, raising awareness and funding innovative, high-impact research to prevent, treat and ultimately cure hydrocephalus.

**Our vision** is a world without hydrocephalus.

# Why support the Hydrocephalus Association?

- 1 There is no cure for hydrocephalus.
- 2 Hydrocephalus is a life-threatening condition that affects approximately one million Americans.
- 3 One out of every 770 babies will develop hydrocephalus, making it as common as Down syndrome and more common than spina bifida or brain tumors.
- 4 Anyone at any age can develop hydrocephalus.
- 5 An estimated 800,000 seniors are believed to have normal pressure hydrocephalus (NPH) but are often misdiagnosed with Alzheimer's disease, Parkinson's disease, or dementia.
- 6 Often called "treatable dementia," NPH is one of the few causes of dementia that can be controlled or reversed.
- 7 Brain surgery is the only effective treatment for hydrocephalus.
- 8 Hospital charges for hydrocephalus are over \$2 billion per year.
- 9 More than 36,000 shunt surgeries are performed each year (one every 15 minutes) and more than half of them represent emergencies.

# Why join the Corporate Council Program?

**HA's Corporate Council Program (CCP)** is an effort to bring even more value to these partnerships and further the HA Mission. Partners will receive benefits throughout the year via HA event and program offerings, and access to our patient and provider community via surveys and focus groups. Participants will also have annual opportunities to meet virtually and in-person to explore relevant issues in the industry.

The CCP aims to drive efficiency and improve research and therapies by connecting partners with subject matter experts to accelerate the discovery and development of safe and effective treatments, education, and support for the hydrocephalus community.

CCP partners will impact the development and expansion of HA's mission and enhance their engagement with the scientific and patient/family communities while highlighting their own contributions to the industry.

## ACHIEVE PATIENT-DESIRED OUTCOMES

The CCP emphasizes the inclusion of patients, their caregivers, and treatment providers in discussions with industry leaders to ensure their input is included in the treatment development process. HA's recent two-year Community Research Priorities project was driven by the opinions of these groups to help inform our direction and continues to influence our programmatic work.

## UNIQUE OPPORTUNITIES

Exchange open dialogue and information with patients and caregivers, leading experts in the field, and others on a wide variety of topics related to clinical development, regulatory approval, and market access of treatments for hydrocephalus.

# Key Activities

## CCP Roundtable Meetings

Two meetings annually (one virtual, one in-person\*)  
Partners will have the opportunity to hear from key speakers about industry-relevant topics and interact with researchers/care providers.

Suggested topics:

- Patient access to treatment
- Access to industry-relevant data
- Access to novel therapies
- Reimbursement

*\*in-person will be in conjunction with biennial patient conference or other gathering.*

## National Conference on Hydrocephalus

The National Conference on Hydrocephalus, HA CONNECT, is a biennial opportunity for exhibitors and sponsors to reach and connect with people throughout the community, including patients and their families, medical professionals, researchers, representatives of the health industry and corporations. The goal of the conference is to provide the hydrocephalus community with tools and connections to address the medical, educational, and social complexities of living with hydrocephalus and to learn from world-renowned medical professionals and researchers.

# Key Activities continued

## WALK to End Hydrocephalus (Fall)

Annual community event in 40+ locations. Opportunity to engage with the hydrocephalus community, raising awareness, and vital funds for HA programs.

## Hydrocephalus Awareness Month (September)

Inspire engagement throughout the month using social media, email and videos sharing relevant and impactful stories that highlight HA's mission to improve lives and fund research to find cures.

To learn more about the benefits of partnering with HA, please contact:
